FOR IMMEDIATE RELEASE

EFG SOLUTIONS JOINS KONECT RESELLER PARTNER PROGRAM

CALGARY, Alberta, Sept 1, 2005 – desktopsites Inc. (“desktopsites”), a rapidly emerging leader in access serverware for small and mid-size businesses, is pleased to announce the addition of EFG Solutions Inc. (“EFG Solutions”) to its Konect™ Reseller partner program. EFG Solutions provides consulting, programming and network services for businesses and organizations in Lethbridge, Alberta, Canada.

“We work hard to ensure our clients gain the maximum return on their technology investments and to reduce the time and effort they spend managing and dealing with their technology,” says Timothy Frantz, CEO of EFG Solutions. “Our clients require that each dollar they invest returns something tangible to their business, especially when it comes to technology. Konect is one of those rare software products that we can confidently position as delivering those types of returns. From our perspective, Konect delivers 2 key benefits to our clients. The first is cost savings; Konect takes software, hardware and support costs out of their business. And second is simplification; Konect takes the complexity out of managing software and resource publishing. With these benefits, Konect almost sells itself.”

“We are very pleased to welcome EFG Solutions into our Konect Reseller Partner Program, said Alex Bethlehem, President and CEO of desktopsites. “As with most cities in Alberta, the economy is driving strong growth in Lethbridge and surrounding area. We are looking forward to working with EFG Solutions to help local businesses leverage technology as part of their roadmap for continued success.”
