FOR IMMEDIATE RELEASE

OXYGEN TECHNICAL SERVICES JOINS KONECT RESELLER PARTNER PROGRAM

CALGARY, Alberta, March 1, 2006 – desktopsites Inc. (“desktopsites”), a rapidly emerging leader in access serverware for small and mid-size businesses, is pleased to announce the addition of Oxygen Technical Services Ltd (“Oxygen Technical”) to its Konect™ Reseller Partner Program. Oxygen Technical is a business systems strategy and integration company specializing in meeting the needs of small and mid-size companies by offering affordable solutions, consulting services and service contracts.

“Small and mid-sized businesses need technology to compete in today’s world economy,” says Martin Kepka, Vice President of Oxygen Technical. “Due to their size, however, these companies often cannot afford the types of solutions and services traditionally made available to them. Oxygen Technical is committed to providing our clients with affordable consulting services and solutions to help them take advantage of the latest technologies in their business. Konect is a perfect addition to our solution portfolio. It is a market leader, is cost effective, is simple to implement and administer while powerful in its functionality and is focused on our target market customers.”

“We would be challenged to find a business partner more aligned with our core business philosophies relating to IT and small and mid-size businesses,” says Alex Bethlehem, President and CEO of desktopsites. “The Oxygen Technical team is an exceptional group and we know they will represent Konect very well in the Winnipeg, Manitoba region. We are looking forward to working with them in their regional sales and marketing initiatives.”

About desktopsites

desktopsites is an emerging leader and innovator in on-demand application publishing serverware solutions for small and mid-size businesses globally. desktopsites’ Konect solution enables companies to simply and securely extend network resources and seamlessly publish applications, wherever and whenever they are needed. desktopsites was founded in 2000 and is headquartered in Calgary, Alberta, Canada.
