### **FOR IMMEDIATE RELEASE**

## **GEAR 3 TECHNOLOGIES JOINS KONECT RESELLER PARTNER PROGRAM**

**CALGARY, Alberta, March 6, 2006** – desktopsites Inc. (“desktopsites”), a rapidly emerging leader in access serverware for small and mid-size businesses, is pleased to announce the expansion of its Konect reseller network in the eastern USA with the addition of Gear 3 Technologies, LLC (“Gear 3”) to its Konect™ Reseller Partner Program. Gear 3 is renowned for providing outstanding client experiences with its High-Speed Internet Access, Web Hosting and Technical Services portfolio.

“The Gear 3 mantra is to provide and do what is right for our customers to ensure their continued success, says Bill Mavracic, CEO at Gear 3. Our portfolio of services reflects not only our desire to provide web-related services but it also reflects our response to the needs our customers share with us. The questions and inquiries of our small and mid-size business customers often reflect the next logical area of services we look to as we grow our own business. Application publishing has long been a gap we have been unable to fill for our customers due to the costs, complexities and limitations of the available solutions. The Konect solution from desktopsites provides us and our customers with the right cost / capabilities balance to fill this gap. It is an exciting solution that we are eager to add to our portfolio.”

“The eastern USA is home to one of the largest concentrations of small and mid-size businesses in North America,” said Alex Bethlehem, President and CEO of desktopsites. “The opportunity to work with Gear 3 gives us a strong and highly credible partner to represent Konect in the region and tap into this vast market place. We are very keen to work with Gear 3 on joint marketing and sales initiatives to increase the traction for Konect in the region.”

### **About desktopsites**
