FOR IMMEDIATE RELEASE

DMP TECH SERVICES JOINS KONECT RESELLER PARTNER PROGRAM

CALGARY, Alberta, Dec 8, 2005 – desktopsites Inc. (“desktopsites”), a rapidly emerging leader in access serverware for small and mid-size businesses, is excited to announce the addition of DMP Tech Services (“DMP”) to its Konect™ Reseller Partner Program. DMP is an all-in-one technology solutions provider specializing in reducing client’s operating costs and increase revenues through integrated efficiency and productivity.

“Over the past few years we have found our small and mid-size business clients encouraging our business to expand into different and complimentary technology areas,” says President and owner Mark Povolo of DMP. “In accommodating their inquiries and requests we have found a terrific source of new business to grow the scope and reach of our solutions. Most recently we are encountering an increased interest in software solutions that will simplify our client’s IT environment and requirements. Our search for a solution led us to Konect and from what we have seen thus far, we are certain this will be another strong solution for our clients. We are eager to work with desktopsites to prove out Konect’s value proposition in Ontario.”

“It is an exciting testament to the continued strong interest and growth of Konect that we welcome DMP Tech Services into our Reseller Partner Program,” said Alex Bethlehem, President and CEO of desktopsites. “DMP has a strong presence in the retail industry with their experience around point of sale systems. Given our success in this industry, we are very keen to work with DMP and further cost reductions for their small and mid-size retail clients and prospects.”

About desktopsites

desktopsites is an emerging leader and innovator in access serverware solutions for small and mid-size businesses in North America. desktopsites’ Konect solution enables companies to simply and securely extend network resources and seamlessly publish applications, wherever and whenever they are needed. desktopsites was founded in 2000 and is based in Calgary, Alberta, Canada.
