FOR IMMEDIATE RELEASE

POSITIVE E SOLUTIONS INC. JOINS KONECT RESELLER PARTNER PROGRAM

CALGARY, Alberta, March 15, 2007 – desktopsites Inc. (“desktopsites”), a rapidly emerging leader in access serverware for small and mid-size businesses, is pleased to announce the addition of Positive E Solutions Inc. (“PES Inc”) to its Konect™ Reseller Partner Program. PES Inc. specializes in providing cost-effective, high quality Internet and network products, services and solutions to its clients.

“Competitive pricing and quality solutions and service are what set us apart in our local marketplace,” says Bret Austen, General Manager of PES Inc. “We take great pride in identifying and providing the latest technology solutions and our clients appreciate that we are able to provide them with real, cost-effective options that they can choose to meet their specific needs. Konect is a terrific access solution for our client base. It provides them with workplace flexibility, increased productivity and security that they can trust all in one simple, very affordable package.”

“Small and mid-size businesses have adjusted over the past 18-24 months to recognize they are even more challenged by those ‘issues’ formally considered the concerns of large enterprises” said Alex Bethlehem, President and CEO of desktopsites. “Data and the security and accessibility of it is of even greater importance to small and mid-size businesses. The loss of critical business data and the inability to access it from where and when it is needed would not only severely hinder a small business but it could close them down. Positive’s combination of networking and data protection services are an excellent solution set to serve key small business priorities.”

About desktopsites
