FOR IMMEDIATE RELEASE

SOLUTIONSMARK JOINS KONECT RESELLER PARTNER PROGRAM

CALGARY, Alberta, April 24, 2006 – desktopsites Inc. (“desktopsites”), a rapidly emerging leader in access serverware for small and mid-size businesses, is pleased to announce the addition of SolutionsMark to its Konect™ Reseller Partner Program. SolutionsMark offers a unique blend of seasoned business experience, superior technical capabilities and leadership guidance to its client base.

“The landscape for small and mid-sized business is changing dramatically and so are the technology solutions they need to ensure their current and future success,” says Mark Ferraz, President and CEO at SolutionsMark. “Access infrastructure solutions are becoming increasingly important to small and mid-sized business as they adjust to the need for anytime, anywhere access for their employees. Traditional access infrastructure solutions have not adjusted their feature set and pricing models appropriately to assist this growing segment. This new Konect solution from desktopsites is positioned extremely well to provide the type of access these businesses need. I see a bright future for the Konect technology and am excited to be a partner with desktopsites at this early stage in their growth.”

“It is exciting to welcome onboard an experienced access infrastructure partner and to have them provide a strong validation for Konect,” explains Alex Bethlehem, President and CEO of desktopsites. “The buzz for years from large technology vendors has been about the size and opportunity presented by this small and mid-size business market. As we repeatedly hear from our expanding partner channel, these large providers are unable to scale their solutions, business and pricing models to effectively serve the needs of small businesses. Our focus from day one has been to provide a powerful technology feature set at a price point that makes sense to our peers.”
