FOR IMMEDIATE RELEASE

CAT-TEC JOINS KONECT RESELLER PARTNER PROGRAM

CALGARY, Alberta, February 26, 2007 – desktopsites Inc. (“desktopsites”), a rapidly emerging leader in access serverware for small and mid-size businesses, is pleased to announce the addition of Cat-Tec Inc. (“Cat-Tec”) to its Konect™ Reseller Partner Program. Cat-Tec plans and deploys end-to-end IT solutions that provide small and mid-size businesses with core infrastructure to support and protect their interests.

“Cat-Tec stays on the leading edge of technology because the needs, challenges and processes of businesses change,” says Genito Isabella, Vice President of Cat-Tec. “Cat-Tec constantly evaluates new products to offer new and relevant networking solutions that help businesses increase their productivity and flexibility. We found Konect to be an innovator in the access infrastructure space with its simplicity, feature set and low total cost of ownership. Konect has proved out a model that radically changes the access solutions landscape – no longer does access infrastructure need to be complex and expensive to be secure and reliable.”

“Cat-Tec is a premiere reseller partner for Konect,” said Alex Bethlehem, President and CEO of desktopsites. “Our focus for Konect has always been the small and mid-sized business market but we have long known that Konect has the design and feature set to scale into larger organizations. Cat-Tec has confirmed this for us with their interest in Konect not only for its benefits to small and mid-sized businesses but also for its potential to change the playing field in larger organizations.”

About desktopsites

desktopsites is an emerging leader and innovator in on-demand application publishing serverware solutions for small and mid-size businesses globally. desktopsites' Konect solution enables companies to simply and securely extend network resources and seamlessly publish applications, wherever and whenever they are needed. desktopsites was founded in 2000 and is headquartered in Calgary, Alberta, Canada.
