***Remain Productive. Ensure your users have access to critical applications and business resources... anywhere, anytime, on any device.***

## Konect *Elite*<sup>TM</sup>

## Business Benefits

**Increase Remote & Mobile Workforce Productivity**

Konect *Elite* gives your users secure, easy and instant access to the tools and information they need from anywhere at any time on any device.

**Enable Flexible Work Scenarios**

Users are no longer confined to ordinary desktops that are locked to an office, location, or device, radically improving individual productivity and business performance.

**Increase Remote & Mobile Workforce Efficiency**

Providing a consistent user access experience, users can simply and securely access on-demand applications and desktops instantly, regardless of location, device or client OS.

**Scalability**

Konect *Elite* supports your existing Microsoft client and server investments without incurring additional costly hardware and software expenses, and fully supports your infrastructure through the adoption of Server 2008 R2 and Windows 7.

**Affordable**

Konect *Elite* delivers core capabilities for all user scenarios at a fraction of the cost of comparable enterprise offerings.
