**FOR IMMEDIATE RELEASE****STANDARD COMPUTER SYSTEMS JOINS KONECT RESELLER PARTNER PROGRAM**

**CALGARY, Alberta, June 18, 2007** – desktopsites Inc. (“desktopsites”), a rapidly emerging leader in application delivery solutions for small and mid-size businesses, is pleased to announce the addition of Standard Computer Systems, Inc. (“Standard Computer Systems”) to its Konect™ Reseller Partner Program. Standard Computer Systems has been providing high-end technology solutions for businesses and organizations of all sizes and types since 1980 in the West Michigan region.

“While small companies are faced with any number of challenges, running their business affordably and efficiently still ranks as a very high priority,” says Christopher Kuncaitis, Support Services Manager of Standard Computer Systems. “The broad range of available technologies we see today creates an interesting dilemma for many small organizations; one where they can see the efficiency and cost saving benefits of adopting a solution but the initial cost and effort creates a sense of risk that is greater than they are willing to take on. With the emergence of solutions such as Konect, Standard Computer Systems is in a much stronger position to help these organizations find solutions that make business and financial sense while delivering on the promise of optimization and efficiencies. We work diligently to find these solutions to help our customers realize true value with their limited capital.”

“Any business that states that their main focus is ‘customers for life’ is making a bold statement about the values they bring to their work,” said Alex Bethlehem, President and CEO of desktopsites. “Our interactions with the team at Standard Computer demonstrate that this is not only a goal of their business but it is how they conduct themselves in their business on a daily basis. We are very pleased to establish a business relationship with Standard Computer Systems and are looking forward to working with them delivering Konect’s value proposition to their local customer base.”
